

F3X 2012 GAME

Austiblox 2026

ABOUT THE GAME

F3X 2012 is a Austiblox game with an old 2012 **ROBLOX** client, and it has a compatible F3X model ported to 2012 client. F3X is a known building tool created by GigsD4X, this tool is used for building, deleting and more, you could move, rotate, paint, anchor, and resize bricks. This is used for artworks, and buildings such as houses. You could build anything with the F3X tool and you can show the buildings to other players.

Like any building games like *Buildware*, sometimes it has bad players who grief buildings, trolling, exploiting, and more. Because of it: Games need rules. So the obeying the rule plays in a role such as:

1. Fairness
2. Respect
3. Non-violence
4. Learning
5. Peace
6. Tolerance

All of these are respectful and fair if you obey or follow the rules.

Therefore if someone breaks the game rules, you can contact the Austiblox Moderators/Admins to ban someone in Austiblox.

ACKNOWLEDGEMENTS:

Special thanks to **Gage4 or ROBLOXisawesomme** for creating Austiblox, **David Baszucki and Erik Cassel** for creating ROBLOX, **tobufi or jakkee** for a F3X 2012 model, **bootleg** for some buildings on a map, and thanks to **Bitl** for a baseplate RBXL.
